- Need work done on your home?
- Afraid of getting ripped off?
- Want reliable and trustworthy contractors?
- Life would be so much easier if you could just go to one place for all the work on my house?

If you answered “yes” to these questions, you’re not alone. But the number one complaint by U.S. consumers is home improvement contractors and repair. More complaints were made about contractor fraud to the Florida’s Attorney General’s Office than about any other issue. Unfortunate facts, but your house won’t fix itself.

You’ve heard nightmare stories of dishonest contractors who take the money and run. They leave homeowners with nothing but problems and more work to do than they started with! If you don’t use a reputable source to find your contractors—someone who does background checks and makes sure that these contractors are legit—you are at risk to become one of these horror stories!
